

Lesson 26 Questions

Write the HTML code needed to create the following form. No CSS is needed. When the submit button is pressed, the form should attempt to run a script called "processSurvey.php".

The image shows a web browser window with the title "CTVA 361 Survey". The address bar shows the file path "file:///Users/jacobenfield/Desktop/index.html". The form content is as follows:

CTVA 361 SURVEY

Fist Name:

Last Name:

Sex:

- Male
- Female

Hardware you own:

- Desktop Computer
- Laptop Computer
- Tablet (e.g. iPad, Galaxy, et..)
