

Lesson 32 Questions

What is the purpose (advantage) of replacing DIV tags with new HTML5 tags such as HEADER, FOOTER, NAV, and ARTICLE?

What is a disadvantage of using these new tags?

Convert the following code snippet into HTML5:

```
<body>
  <div id="wrapper">
    <div id="header">
      <h1>TITLE</h1>
      <div id="nav"></div>
    </div>
    <div id="main"></div>
    <div id="footer"></div>
  </div>
</body>
```

What are the three file types that are supported by the VIDEO tag?

Why is it helpful to convert your video to more than one of these file types?

Name a program mentioned in the video that allows you to use screen capture to create a video.

Name a program mentioned in the video that allows you to convert video files into different video formats.
